Subject: Philip Morris ACCORD JLI-LONG TERM cigarette accountability question

Hi Bettie,

Bob reports in his visit from last week to MDS Phoenix that the cigarette accountability logs match inventory. There are 1980 Accord and 1702 Marlboro Ultralite packs on hand. The site has destroyed the previously monitored returned drug per your authorization. The site did not destroy the expired Merits they have on hand since the e-mail specifically refers specifically to Accord only. Furthermore, the site would like clarification if they have authorization to destroy returned cigarettes after each monitoring visit and proper documentation. Can you provide this documentation to the site with a copy to Bob for his records?

Kind regards,
Aimee
